Canon

PIXMA iX7000

Award-Winning A3 Office Inkjet Printer

A3 Inkjet Printer with PgR technology

Professional quality text, graphics and photos on plain paper

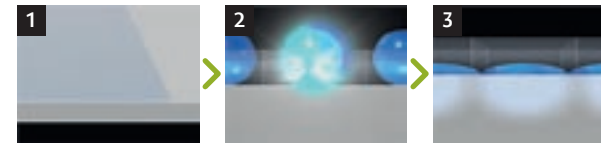

Professional-quality prints for text, graphics and photos

PIXMA iX7000

The quality of your printed materials is a reflection of your business. The PIXMA iX7000 has been designed to meet the exacting needs of professional users – this versatile, innovative printer makes it easy for you to produce your own professional documents in house.

- Ultimate A3 business inkjet printer
- Superior plain paper printing with PgR technology
- Long-lasting photos using LUCIA pigment inks
- ISO: ESAT print speed 10.2ipm mono, 8.1ipm colour
- Generous 250-sheet paper cassette
- A3 auto duplex print
- Exclusive access to downloadable Solution Templates
- Built-in Ethernet connectivity

The unique PgR system pre-coats the paper with a layer of clear ink. The pigment inks form a chemical bond with the clear layer to give stunning colourful graphics and laser-quality text.

Amazing print quality, even on plain paper

The award-winning PIXMA iX7000 printer features Canon's unique Pigment Reaction (PgR) technology, giving superb laser-quality results on plain paper that are durable, water fast and smudge resistant. The LUCIA pigment inks provide outstanding colour intensity and crisp, sharp text for document printing yet offer superb photolab-quality results for graphics and photos.

Keep running costs to a minimum

The competitively priced PIXMA iX7000 is very economical. The PgR technology means that when you need a professional quality print, but don't want to pay for photo paper, you can still achieve superb printing results on plain paper. In addition, the PIXMA iX7000 uses individual ink tanks to help reduce running costs. The Easy Ink Delivery system provides a quick link through to the Canon e-store so you can order replacement inks with ease.¹

Business-quality printing, quickly

Rapid print speeds make the PIXMA iX7000 ideal for any small business, whether home or office-based. Print an A4 mono document in 6 seconds or an A4 full-colour graphic in as little as 23 seconds. The PIXMA iX7000 can also double up as a fast photo printer – print an A4 photo on photographic paper in approximately 80 seconds.

Great paper-handling and convenience

This printer really has it all – automatic double-sided printing up to A3 size as well as three-way paper feeding. The PIXMA iX7000 features an extra-large paper cassette that holds a maximum of 250 sheets up to A3 size and a 20-sheet rear tray ideal for photo paper. Plus, for added convenience, it has a 10-sheet manual feed at the front, so you can fulfil one-off printing jobs without having to change the paper in the main cassette.

The built-in Ethernet port means that it's simple to connect the PIXMA iX7000 to a network, so everyone in your office can benefit.

Exclusive access to an extensive library of Solution Templates

The PIXMA iX7000 comes with unique, click-through access to a set of downloadable templates, making it easy for you to produce essential materials quickly and easily. Whether you need professional-looking menus for your new restaurant, posters or flyers to advertise your business, point-of-sale materials or general notices, there's a template available for you to customise.
